Company Overview
Since 1992, CMW has provided exceptional medical waste disposal service to generators along Colorado’s Front Range. In 2014 we introduced ozone processing at our facility in Aurora where we turn medical waste into confetti! Our state of the art technology shreds and sterilizes the waste. We reduce its volume by 90% with ZERO emissions as ozone reverts back to simple oxygen. Efficacy tests prove ozone is 100 times more effective than steam autoclave treatment and is an eco-friendly alternative to toxic incineration. Our energy efficient technologies conserve natural resources while eliminating the public health effects and environmental contamination of antiquated heat and energy intensive systems that are heavy consumers of water and natural gas. We are a local, minority, woman owned small business and are on the forefront of environmental stewardship to reduce the carbon footprint of healthcare and medical waste. Combining our industry expertise, award winning customer service and sustainable technologies, we’ve set the standard by providing the most ethical and affordable means of managing medical waste to date. Do your part. Make the responsible decision for your medical waste because out of sight is no longer out of mind.

CMW’s Ozone Processor

Benefits of Ozone Processing
- 90% volume reduction means tons of medical waste is diverted from landfills, incinerators and hazardous waste facilities
- Reduces green house gas emissions and their contribution to global warming
- NO emissions as ozone reverts to oxygen
- NO contamination to air, soil or water
- Shredding eliminates HIPAA exposure and generator liability
- Local processing reduces costly out of state transportation and incineration disposal fees
- Replaces antiquated heat and energy intensive processes

Our Innovative & Sustainable Technology
- Is approved by regulatory agencies
- Serves the medical waste generating community
- Conserves natural resources
- Demonstrates recycling and reuse
- Reduces waste and pollution
- Reduces liability
- Reduces our carbon footprint
- Represents the future

Are You Disposing of Your Medical Waste Responsibly?

Become part of the sustainable solution for our environment. Together, we can make a difference! 303-794-5716
Local Processing and Disposal of Medical Waste Including:

- Animal Waste
- Biological Waste
- Blood and Bloodborne Pathogen Waste
- Cultures and Stocks
- Isolation and Miscellaneous Waste
- Laboratory Waste
- Non Hazardous Pharmaceutical Waste
- Pathological Waste
- Sharps
- Trace Chemotherapy Waste
