

Coronavirus (COVID-19) Regulated Medical Waste & Sharps Packaging Instructions

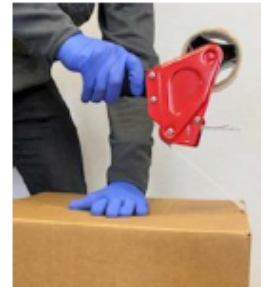

Place full sharps containers & medical waste in red liner inside box

Do not overfill red liner so it may be tied properly

Close box. Tape and seal securely

Single Use Sharp Containers:

Special precautions must be taken to prevent injury or infection to personnel handling these items. Discarding sharps directly in red biohazard liners is prohibited. Sharps must be placed in single use industry standard sharps containers. Full sealed sharps containers must be placed in red biohazard liner inside secondary biohazard box prior to collection.

Regulated Medical Waste:

1. Dispose of medical waste in red biohazard liner inside box
2. Close and tie bag properly
3. Close box. Tape and seal securely
4. Packaging requirements will be strictly enforced
